TAKEN BY STORM

Powerful classic rock with a modern approaches, influenced by the bands like MUSE, KORN, LED ZEPPELIN, NIRVANA ...and more, mixed with a recognizable voice and a positive attitude exploding on stage ... this is the identity and signature sound of the band !

With a casual look and edgy sensitivity, Timmy Storm is the voice, rhythm guitarist, and resident poet/lyricist for TAKEN BY STORM ! On the bass is Donn Torres, a multi-talented California musician who, in his long career, has had the opportunity to rub shoulders with great artists from the US and Europe. Hedi Black, experienced artist and in many cases the tireless leader of the group, lends himself to the role of the drummer. Alex Sanders, a virtuoso guitar player who has played with many top artists, joined the band in November 2014. With these four dynamic artists the group has taken off and is giving it their all on the new album !

In the few years of working as a band, TAKEN BY STORM can be proud of playing an active part in the European music scene. They have played some of Europe's most exciting and important stages such as Montreux Jazz Festival and Red Pigs Festival in Switzerland, Exit Festival in Serbia, and many more. Other venues include Satellit Club - Roannes/France, Bitef Art Cafe - Belgrade/Serbia, Hall Of Fame - Zürich/Switzerland, Mr. Pickwick - Geneva/Switzerland...as well as many others.

During this period the band has shared the stage with the biggest world acts.

Currently working on their second studio album, TAKEN BY STORM are also filming new music videos (out by the end of October) and getting ready to hit the road for a Swiss and European tour this fall. 2017 looks to be a busy year as well with shows planned in Germany, Austria, France, Belgium, Holland, Russia and more.
